

PRUHONICE PARK WITH THE WELCOME CENTRE

Do you like parks? At the Welcome Centre, we do. Therefore, going to Pruhonice park became our tradition as we decided to share a nice walk with our international researchers in Pruhonice park for a second time, on the 26th of June.

If you have never heard about it, it is located approximately 25 kilometres away from Prague. After a very wet Saturday, we had the chance to get some D vitamin because our dearest friend, the sun had decided to share the walk with us as well. Roses were the dominant feature of the garden at this time of year, in all sizes and colours you can imagine.

At some point, trees were our best friends because they offered us some shadows for a small picnic. As the park was founded in 1885, some of them grew big enough for us to feel like we were in the middle of a forest. At the end of the impressive walk, we enjoyed fresh juice from the local cafe.

The journey to go to Pruhonice was quite easy. We all met at 10 o'clock at Opatov metro station, and then we took one bus which led us directly to the entrance of the park (I have to say it one more time, the Prague transportation system is amazing).

If you would like to go there for a nice walk and enjoy a bit of nature outside of Prague, we totally recommend it.
