

Welcome Centre for International Scholars

On the 16th of July 2022, at the Welcome Centre, we organised our first trip out of the Czech Republic. It was a big event which required a lot of organisation. We finally made it after these difficult times of pandemic and we were all really enthusiastic about it.

On that very day, we left CZU at 7 a.m because we had a long day ahead of us. We travelled in a very comfortable bus for two hours and arrived at Bastei Bridge, our first stop.

We had a nice walk and took beautiful pictures from multiple viewpoints above rock formations and the Elbe River. There are some hiking trails around which we have not had time to explore but if you are keen on walking in the nature, it is totally worth it.

After another hour of journey, we arrived in Dresden for lunch. We ate in a nice restaurant and then went for a guided tour around the city centre. We had the chance to visit Frauenkirche, passed by some Czech art exhibition, and we saw many other monuments. The capital of Saxony is full of history and if you are passionate about architecture, visiting it is totally worth it. Even though the city was destroyed during the war, it has been rebuilt and it is really charming.

After this 2 hour walk through the city, we had some free time to rest or for those with a high stamina keep visiting.

To sum it up, this day was perfect, we escaped from the rain, saw beautiful monuments, without forgetting to mention that we crossed borders!
