

## We would like to introduce you to a new training course

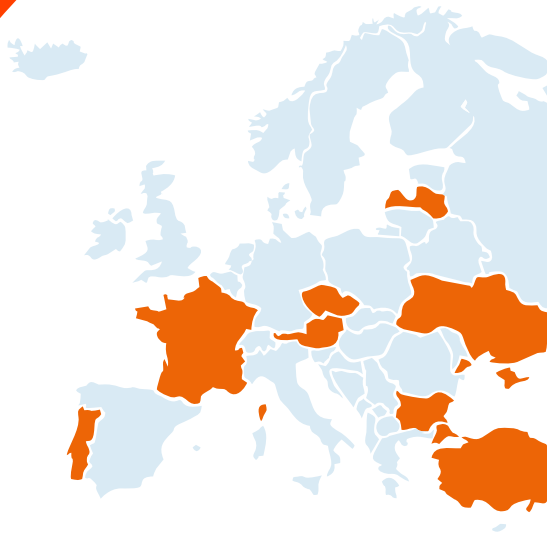

on entrepreneurship and entrepreneurial skills.

- ✓ This course we are developing together with an international consortium of partners across **Europe, sponsored by the European Institute of Innovation and Technology (EIT HEI Initiative).**

The course is divided **into 6 interrelated modules** that can be studied separately or overlapping (depending on the student's knowledge).

- ✓ It can be taken in the first wave from October to December.

# Benefits of the course

The course is **interactive** and **completely online** - everyone can take it at their own pace throughout the semester

No instructor is required

The course can be used as **support material** for students in a wide range of courses

The course is **certified** by a project supported by the European Institute of Innovation and Technology

A certificate will be issued for each module completed (a certificate with a completion sheet)

Several partner universities will accredit the course with ECTS credits

English

The whole course is in **English** (will help students to master the terms also at international levels)

The mission of the project „**HEI Innovation for Knowledge Intensive Entrepreneurship (HIVE)**“ is to enhance the innovation and entrepreneurial development of the project partners through networking and exchange of best practices identified at national and international level.

Let us know if you found the course interesting and would be interested in sharing it with your students. Alternatively, if you have a tip for which of your university colleagues it might be useful for.

**Thank you,**  
Point One and the Development and Project Management Department
