Kick-off event:
15 October 2019

Grand Finale:
mid June 2020

WAGENINGEN
UNIVERSITY & RESEARCH

Rabobank

碧桂园
现代科技农业

After the success of the first Urban Greenhouse Challenge, Wageningen University & Research organizes the second edition of this cutting-edge, international competition!

What?

Design an iconic and circular urban 'greenhouse': a vertical agro-food complex for a city in China that (1) produces safe and healthy food for the local neighbourhood and commercial markets (2) stimulates a healthy lifestyle and interactions with city dwellers.

In your entry you should integrate food production and social impact. The concept should be underpinned by a convincing business plan.

For whom?

BSc, MSc and PhD students at universities or universities of applied sciences worldwide.

Why join?

Participation in the Challenge presents you with the unique opportunity to work in a group on something that really matters and to cwontribute to a sustainable future while developing extra-curricular skills and knowledge. Also, it is a chance to build your CV, extend your network and get noticed on the job market!

What is to win?

The total prize pool is € 15,000+. The winning concept will provide inspiration for a new development project at the boundaries of a Chinese metropole.

2nd
EDITION
