Cultural & Social program

Samara National Research University offers participants full immersion to the Russian living way. Cultural & social program is a daily part of international online schools. It provides an exceptional opportunity for students to discover Russian traditions and way of life and observe live virtual excursions. Duration of the program is 2 hours every day. It is streamed via special access to the link on Youtube. There is a 'Questions & Answers' section so students are free to ask any questions to the guides.

The cultural program includes many activities. All excursions are streamed in a real-time mode. Cultural part includes live virtual tours around Samara city to:

The Old town of Samara;

The Samara city's embankment;

The Historical Leningradskaya street;

The Campus of Samara University;

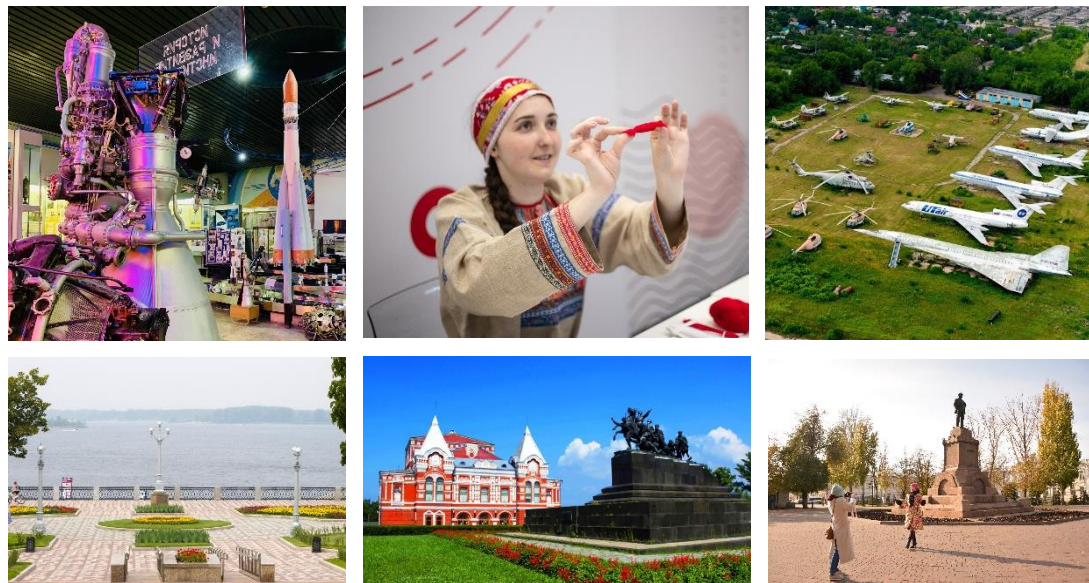

The Traditional Russian cafés and stores.

Moreover international online schools take students to unique sightseeings of Samara National Research University:

The Studying airfield of Samara University – open-air museum of aircrafts and studying laboratory for the students of Institute of aviation technology where participants can find out fascinating exhibits such as supersonic plane TU-144, helicopter Mi-6, aircrafts An-2 and others;

Museum of Aeronautics and Astronautics of Samara University – museum of development of aviation and space in Russia.

**INTERNATIONAL
SCHOOL**

Along with excursions the organizational team prepares two marvelous master classes:

Cooking master class – live cooking class with the team of international schools. Students together with the team of international schools cook 2 traditional Russian dishes. The list of all needed ingredients is provided. Duration: 2 hours;

'Russia through the ages' – master class of knitting traditional Russian dolls 'Martenichki' that is a true souvenir from Russia. The list of all needed materials is provided. Duration: 1,5 hours. Social part of the program includes **online playing games** with the team of international school and **online playing quiz about Russian culture**.

All records are available for 4 months.

Space Materials and Technologies

The development of space research is a priority around the world. Humanity has always dreamed of near and long-distance flights into space and to other planets of the solar system.

Technology created for space concentrates everything the most advanced, from design decisions to the choice of new materials and technologies. While designers can find technical solutions with the help of computer modeling, the implementation of these solutions requires the development of new materials and innovative technologies.

With advanced experience, Samara University (is in top-10 universities in Russia) organizes this two-week online school. The most outstanding scientists will lead you online to the insights of laboratories and show you machines and satellites that were created here in Samara National Research University and now are applied all over the world.

Certificate on 4 ECTS is provided.

INTERNATIONAL SCHOOL

Online program

Deadline: 20 January 2021

Dates:

27 January - 10 February 2021

SYLLABUS

- Space Materials Science
- Generative Design for 3D Printing
- Special Types of Sheet Stamping
- Smart Sheet Forming
- Foundry Manufacturing
- 3D Printing in Space Application
- Welding Processes
- Machining of Materials
- ECDesign & Circular Economy
- Russian Technology

FORMAT

- Live studies
- Live excursions
- Records available for 4 months
- Support 24/7
- E-certificate

TUITION FEE

290\$ NEW PRICE 200\$

3D Printing Technologies

The school program is suitable for students and engineers interested in additive manufacturing for real industrial applications. You will learn 3D modelling and design your own product. You will study how to select 3D printing process and material for a best profit performance. You will be introduced to the principles of designing parts for AM for each major process, illustrated through a series of instructional examples and see artifacts produced at Samara University.

The study program consists of two modules.
1 part: basic principles of the technologies and an overview of its applications.
2 part: case study activities at research laboratories.

The studies will be in a live talk, so you will be able to ask questions and share your experience. Along with studies, you will get a rich cultural program that will make you feel like you are in Russia. Our team has prepared a wonderful journey to Russian cultural and social life.

Certificate on 4 ECTS is provided.

Soft Skills

Modern craziness is dictating new rules and we should follow the novelty and be flexible. Soft skills are vital bunch of knowledge for 'here and now' regardless of your background.

This course is filled out with not only pure theoretical knowledge about personal and interpersonal skills and communication, but also with interactive, not stressing but useful tasks, games and other activities.

The teaching staff of this school is represented by practicing specialists with real cases and working instruments. The main goal of this school is to rocket your personal effectiveness, confidence and leadership giving an essential set of knowledge about communication skills, negotiations, social and emotional intelligence, creative and critical thinking, self-presentation and public speaking.

At the end of this course you will have a real result in the form of brilliant CV for your future job or catchy start-up pitch.

Certificate on 4 ECTS is provided.

Reviews on international schools 2020

**INTERNATIONAL
SCHOOL**

Murcio Martinez Mizraim
National Autonomous University of Mexico, Mexico
This school was one of the most inclusive courses I have seen so far, I really liked the way in which every day different cultural activities were done in addition to the exhibitions on space materials, in terms of the subject, it is a topic that it draw.

Sanni Kupke
University of Jyväskylä, Finland
I learned a lot about Russian culture and the history of Samara and Russia in general. The cooking class we had was super awesome. I recommend this course for everyone and I will definitely do it again to visit Samara some time!

Nicolas Gutzwiller
University of Zurich, Switzerland
I came to University of Samara, because it offered one of the most interesting and diverse programs in International Law. You have so many informative courses and eventough the summer school 2020 was online only, they put their biggest effort into it to make it as memorable as possible.

Haryo Putro Dirgantoro
Universitas Gadjah Mada, Indonesia
Here we can feel how to be a fashion designer. We are also learn the basics in fashion such a style and fashion illustration, and digital fashion. This program is great for us to have an exposure to fashion industry and also polish ones talent.

Hello!
I'd like join International school. Could you please tell me something about it?

I'll apply! Let me think about dates...
